

energyresolution from tau1 in the k-fit(red) and kd-fit(blue)

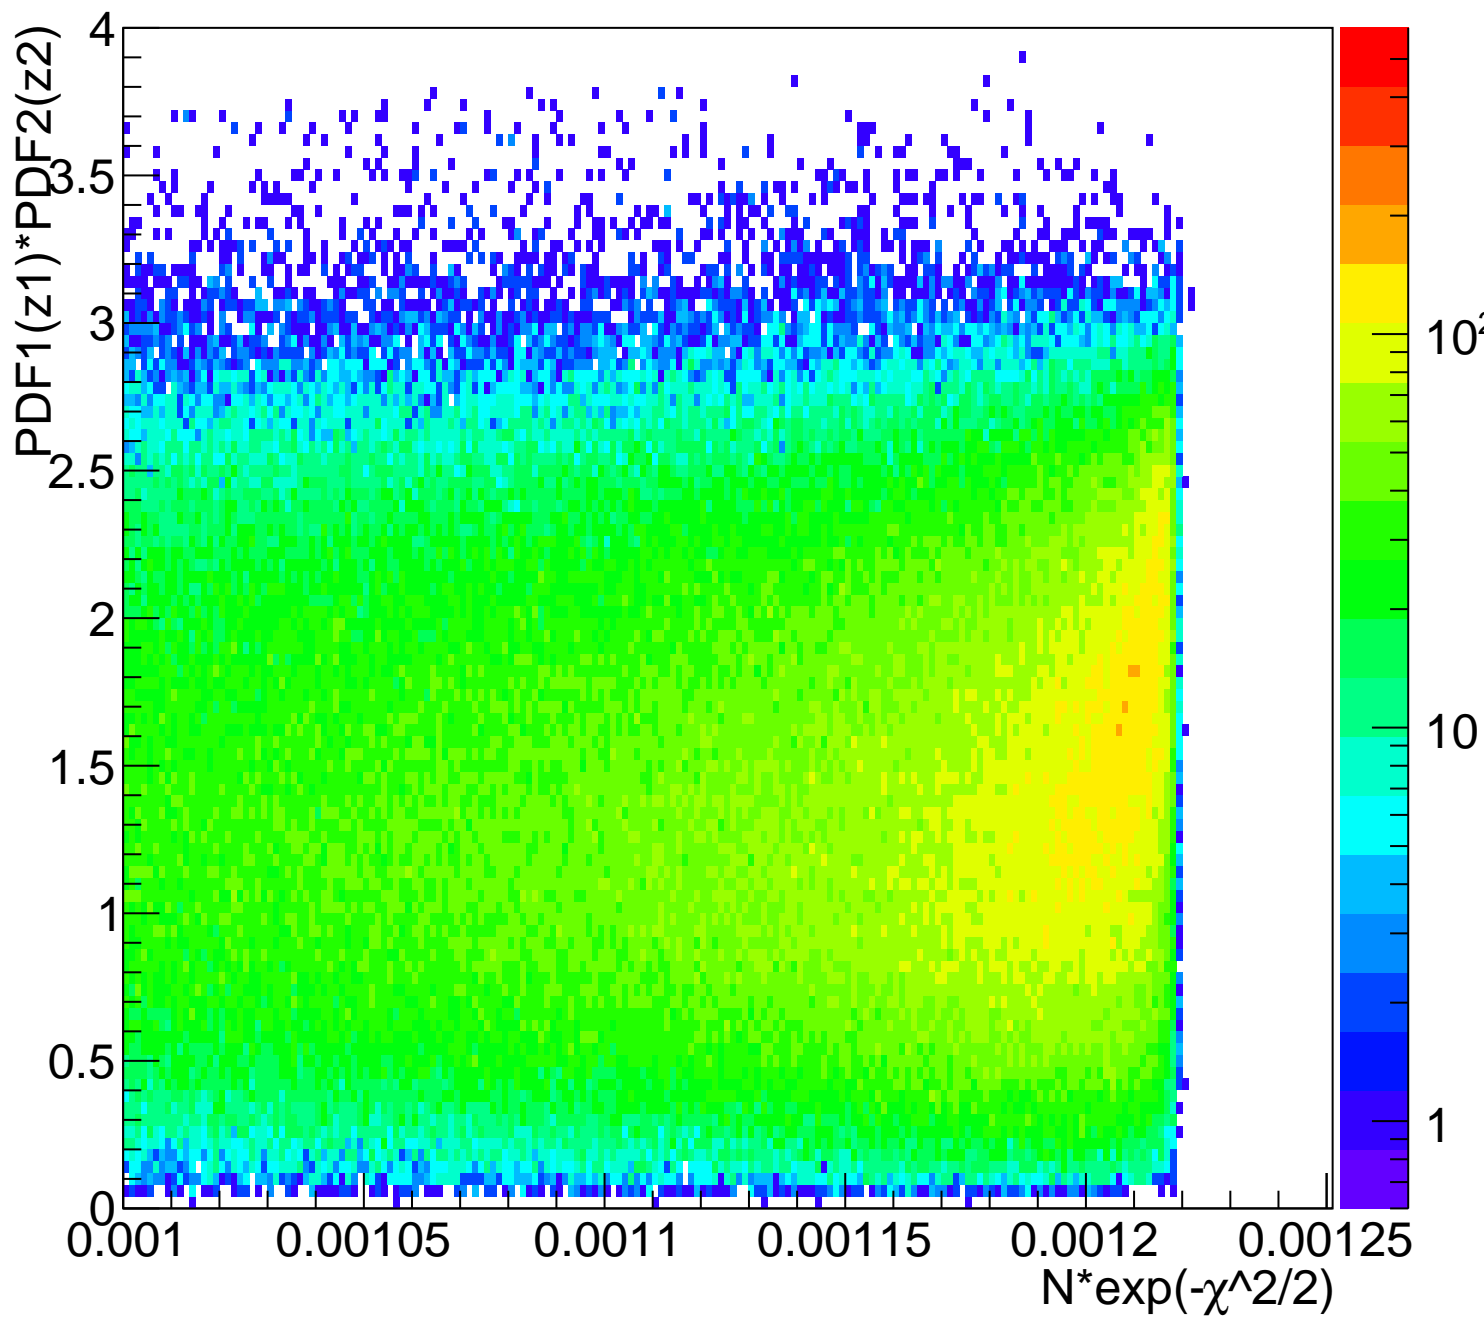

compare the kinematic part of L with the dynamic part of L

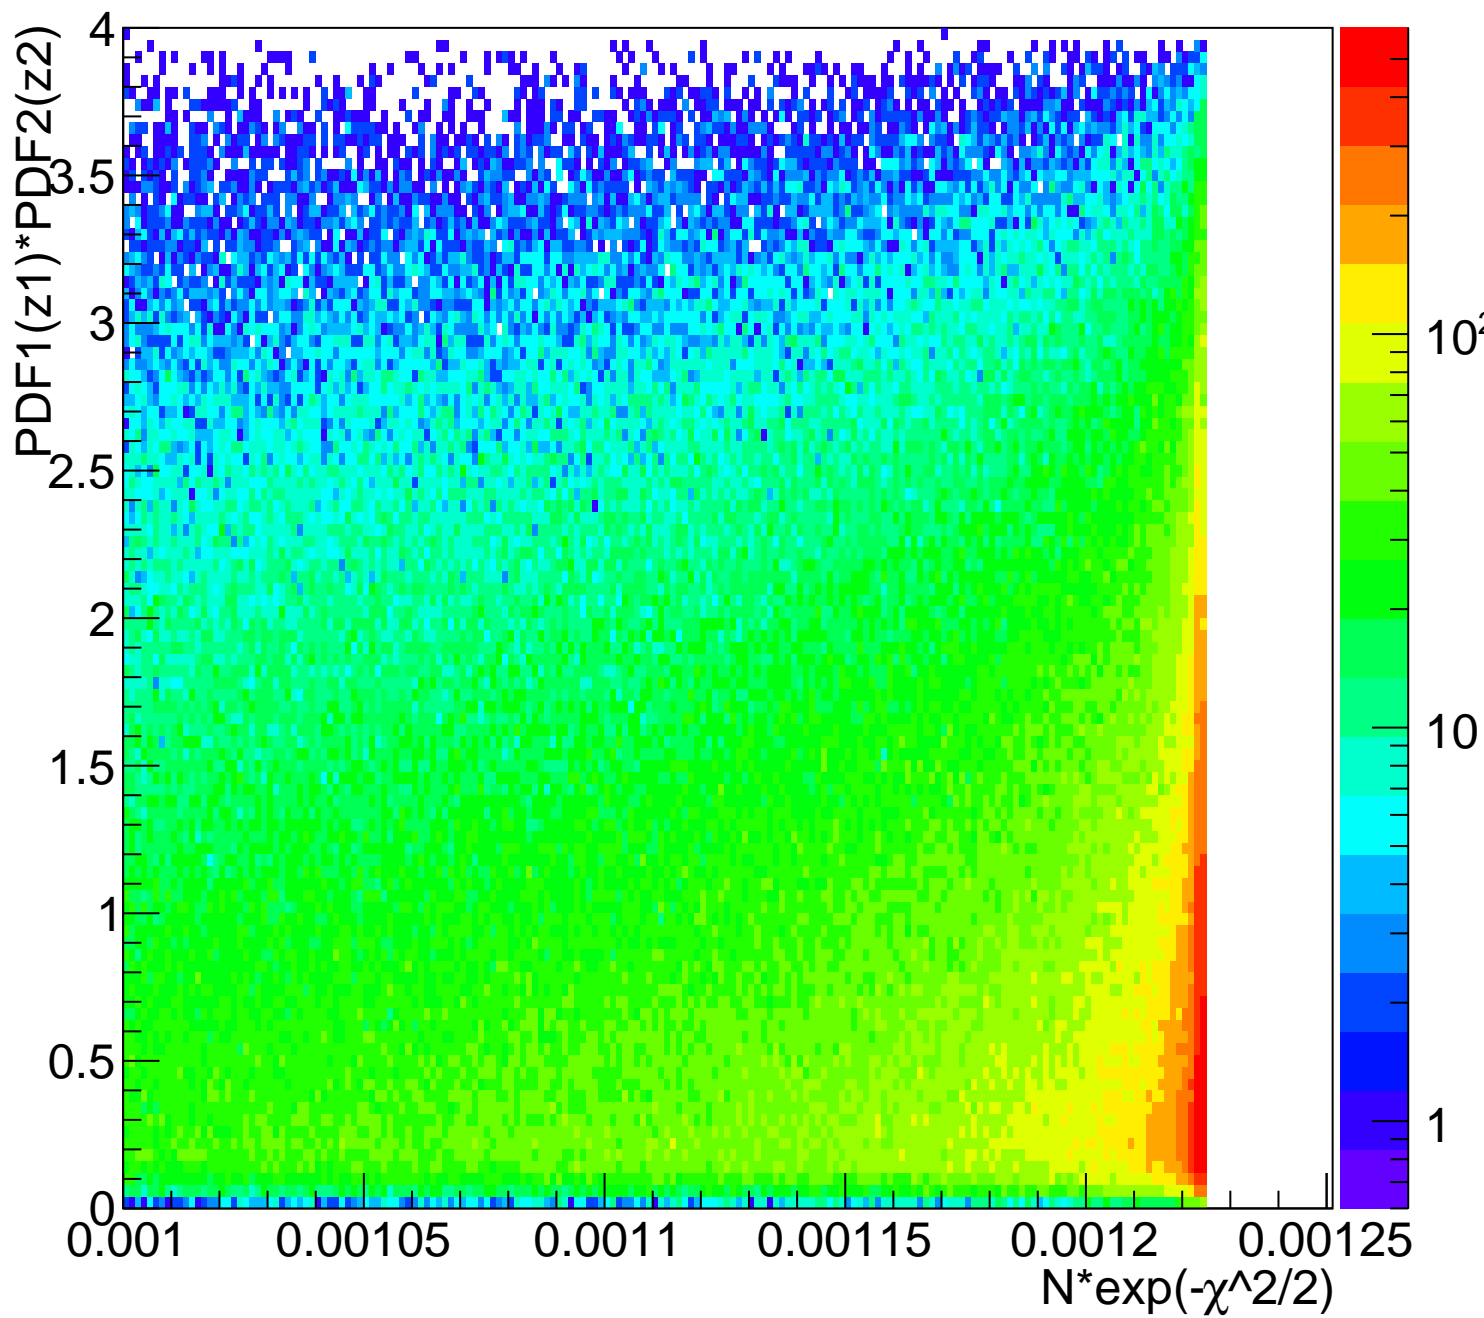

compare the kinematic part of L with the dynamic part of L

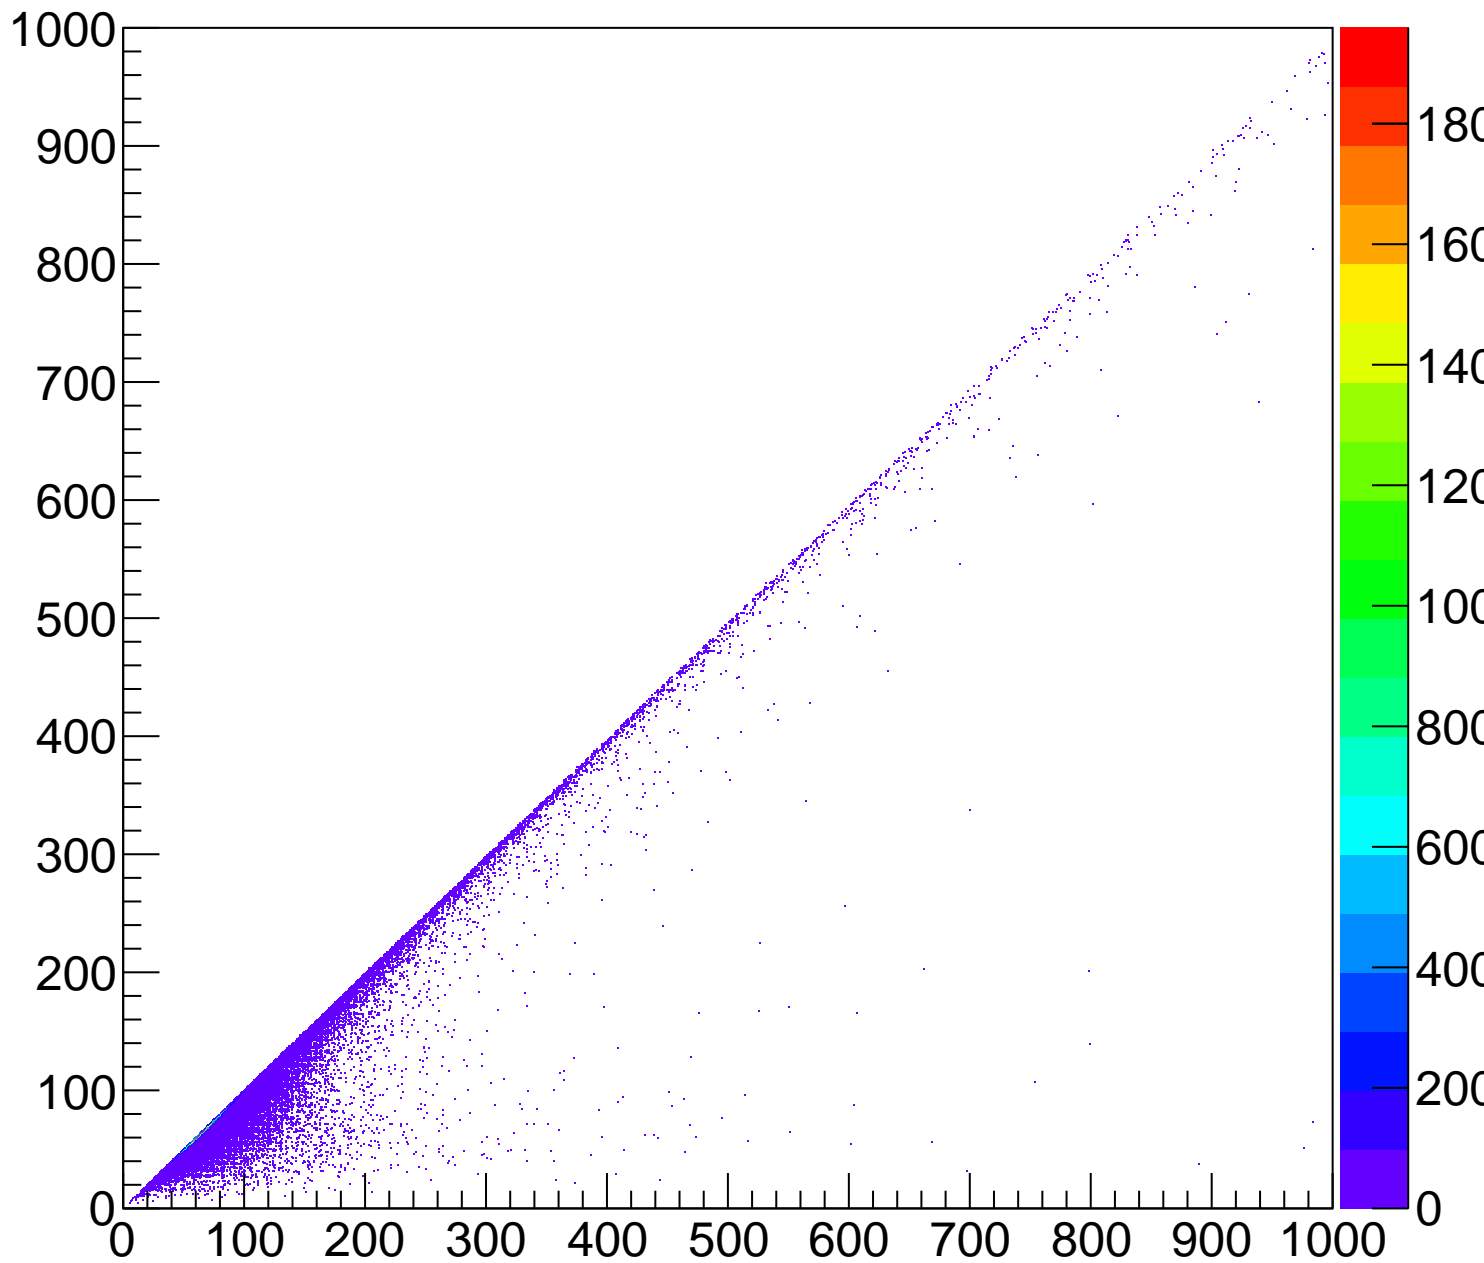

compare the kinematic part of L with the dynamic part of L

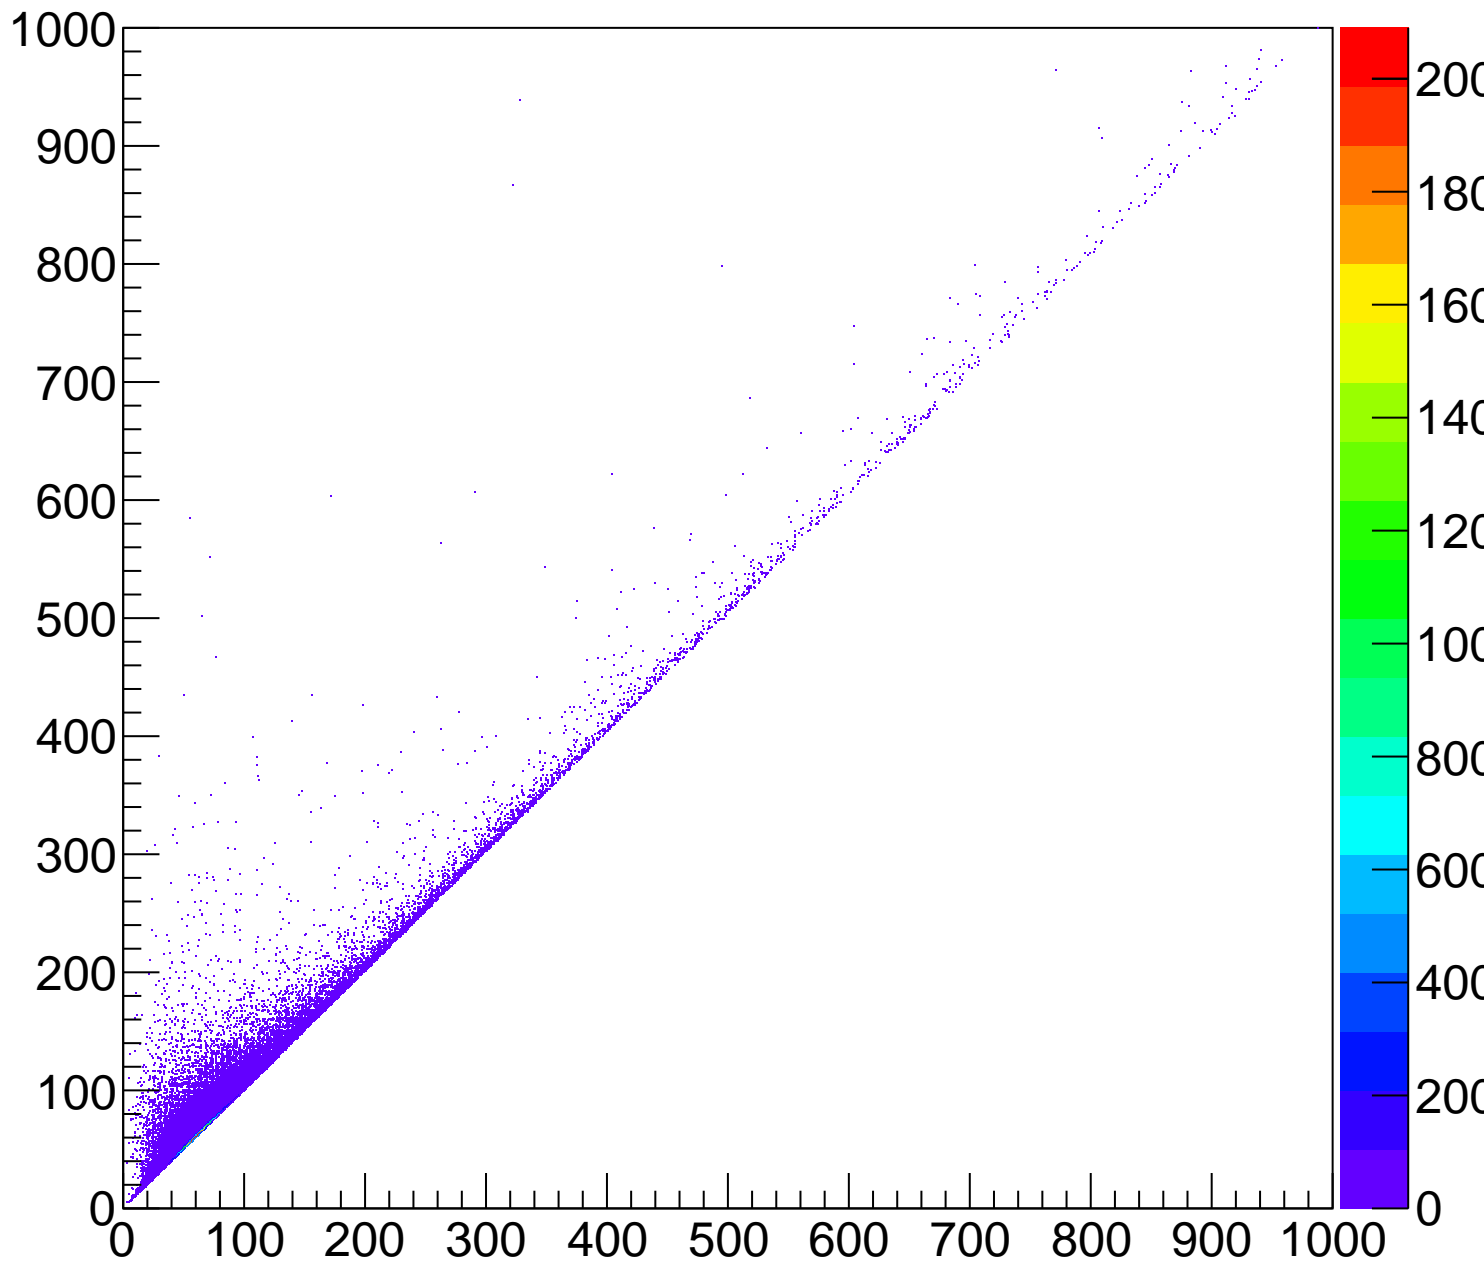

compare the kinematic part of L with the dynamic part of L

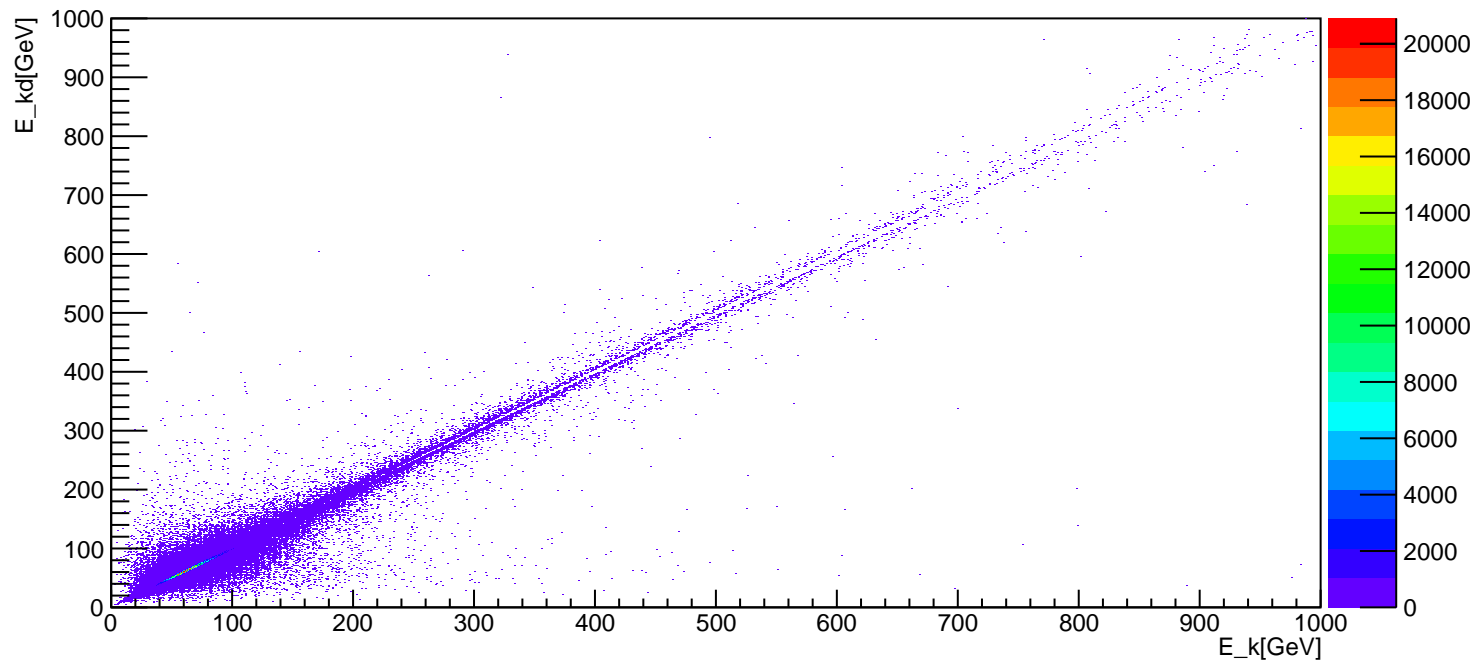

h_EkcompareEkdtau1h

$h_Ek_{\text{compare}} E_{k\text{dtau}2h}$

Final Tau-Energys from k-fit compared with kd-fit

compare chi2 from the k-fit and kd-fit
